Experience

Full Stack Developer

Pixel Studios

Jan 2018 - Sep 2020

- Leading full-stack web app development (PHP, JS), including front-end and back-end.
- Developing and maintaining both front-end (using jQuery) and back-end (using PHP) components of web applications.
- Designing database structures and integrating them into the application's architecture.
- Collaborating with cross-functional teams to ensure seamless user experience and optimal performance.

Web Developer

ByteBloom Tech

Feb 2016 - Dec 2017

- Engaging in coding, testing, enhancement of web apps, and actively participating in code reviews.
- Assist in coding, testing, and debugging web applications under the guidance of senior developers.
- Collaborate with the design team to implement responsive and user-friendly interfaces.
- Participate in code reviews and contribute to the maintenance and enhancement of existing web projects.

UI/UX Designer

Infinity Labs

Aug 2012 - December 2017

- Designing user-friendly interfaces, conducting user research, and collaborating with teams.
- Crafting intuitive user interfaces (UI) that align with branding and enhance user experience.
- Conducting user research to inform design decisions and iteratively refining prototypes.

- Collaborating closely with cross-functional teams to ensure seamless integration of design and functionality.
